

CONFÉDÉRATION INTERNATIONALE DE LA PÊCHE SPORTIVE

Report of the General Secretary

The year 2023 marked the confirmation of all activities of our confederation, after the difficulties following the COVID 19 pandemic.

As always, the secretariat sent the invoices for the annual affiliation fees of the International Federations at the beginning of the year, verifying the regularity of the payments.

The work of the secretariat continued regularly throughout the year, liaising with the confederated FIPSS and taking care of the documentation required and necessary for their activities.

The Secretariat was always present at the Presidium meetings by videoconference and with the direct participation of Ms Barbara Durante and Ms Paola Altobelli during the annual congress held in Rome.

Unfortunately, but only for reasons related to her new job that allowed her to be closer to her family, at the end of September we had to give up Paola Altobelli's presence. I would like to take this opportunity to thank her for her active collaboration within our Sports Family.

The Secretariat was able to continue its activities with the inclusion of Mrs Manuela Fiorelli from mid-October and the return of Mrs Awatef after maternity leave. A warm welcome to both of them.

There are no problems to point out, as the secretarial work has been carried out with the usual regularity and always with the intention of satisfying every request received.

As always, we are available for any needs of our Affiliates.

The General Secretary
Luigi Stuani
