State College, Pennsylvania

4/24/2023

President Matteoli and CIPS Leadership-

The United States Angling Confederation would like to host the 2026 CIPS Congress in the United States. Our organization hosted this event in 2018 and we hope to have all the CIPS members return for another successful Congress. We have a few interested communities (Miami, Washington D.C., New York and others) we will select one if our bid is accepted. We believe we have the experience necessary to have an excellent event. One of our goals will be to make the event cost as affordable as possible.

Please look upon our request with your favor. We are happy to provide more information if needed.

Kind regards,

Tony Forte
