CIPS 2024 Financial Report

Income:

The income for the year 2024 is characterised by a stability in the number of contributing countries, a few new memberships compensate for a few exits.

Thanks to a very closely monitored action by the CIPS administrative secretariat, we register very few payment delays for both contributions and royalties.

The increase in the return on savings in 2024 has led to a considerable increase in the interest on our financial investments, from just over €2,000 in 2023 to almost €10,000 in 2024.
